

# Design a Plate Activity!

Dear Albany Hills State School families and carer's  
We are offering a Fun Fundraising opportunity of 'Design a Plate'.

### Keep your child's art for a lifetime

Design a Plate will turn your child's artwork into a high-quality melamine plate that is food and dishwasher safe and will last for years. While paper pictures tear and fade in the drawer, in 20 years' time, the plate will still be a record of your child's early artistic work.

Children delight in having their dinner on their plates and this can be fun for fussy eaters or you might like to do one for a gift. Cost \$28each.

### What you need to do:

- ✓ Fill in the order form below and return to the box in the office labeled '**Designer Plate**' and collect your template from the same box or email your order form through by Friday 7th August
  - Email address: [fund.raising@albanyhillspandc.org.au](mailto:fund.raising@albanyhillspandc.org.au)
  - ✓ The A3 template will be available from Tuesday 11th August at the office in the box provided or have the template emailed to you so you can print this at home.
  - ✓ Create your artwork at home using bright felt pens and follow the instructions provided
  - ✓ Return all artwork to the office or email your work (artwork will need to be scanned in a A3, 300dpi, colour, Jpeg format and all artwork need to be kept flat to avoid crinkles as this will affect the end result)
  - ✓ Artwork and money received no later than **3pm Friday 11h September**
- All artwork will be sent away and the final product will be returned back to the school for you to collect in time for Christmas.

### Creating the Artwork:

- ✓ **Keep any important writing 2cm away from the edge of the template circle** as it may be cut off during manufacturing
  - ✓ **No guide lines.** Because what is on the paper may end up on the plate, don't draw in guide lines.
  - ✓ **No licensed images.** e.g. Disney characters, sporting emblems/logos or photos they don't own.
  - ✓ **Avoid** faint pencil, crayon, fluorescent or metallic pens as they lose their brightness when scanned
- Remember to **fill in the tab** on each template, with your school's name, the child's name and class and the number of plates being ordered for that design. This information should correlate with that on the Artwork/Plate List.
